

Estimating food waste of grocery stores in Raleigh

In the US we throw away
13 billion pounds of food at
grocery stores, restaurants,
and vendors

What is the saved food
potential in the RTP area
from groceries alone?

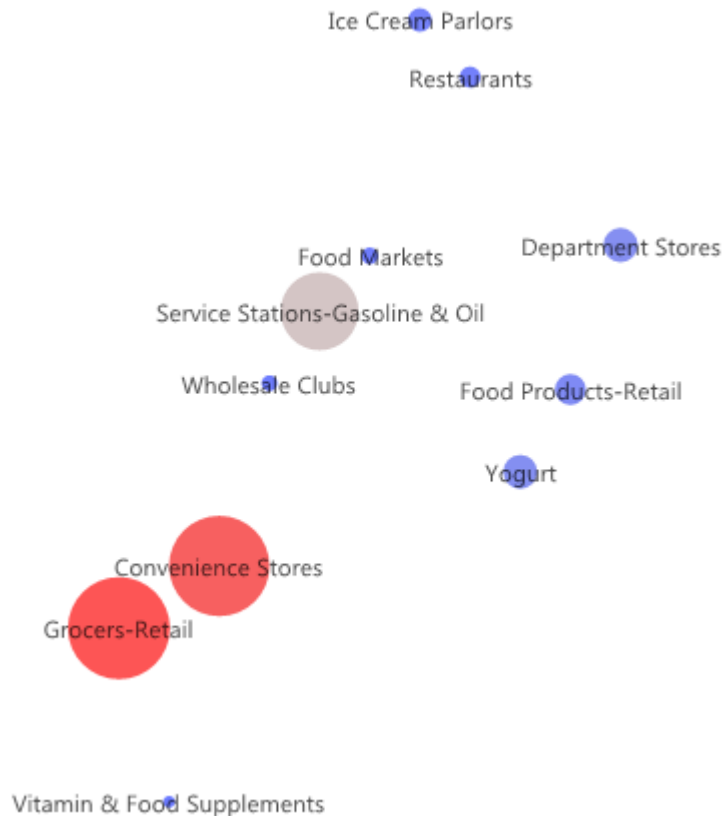

1170 grocery stores listed in four main counties

Where does waste come from?

- Liability
- Logistics
- Overstock
- Woo quality

Considerations for partnerships

11 types of store with different waste and partnership potential

Some participate in donation already

Some need alternative programs (what to do with breweries)

Success stories:

[Food Finders](#) and United Way
